GRAVITEQ ROPE ACCESS

Accessing the inaccessible

A choice that makes the difference. Graviteq is committed to helping its clients reach their goals, from personalizing their training experience to following their professional development.

40+ years of combined industry experience. Our staff believe in real world experience, hence why we still work on the tools to transfer that experience into our training methods

WHY CHOOSE GRAVITEQ?

Complete Learning

Sure, we spend a lot of time climbing ropes but we also take the time to teach the theory behind IRATA's safe system of work.

Being a Graviteq trainee you've got full access to our 'student area' for pre-course, during course and after course reference:

<https://www.graviteq.com.au/student-area>

Password: 101

Peace of mind

Rest assured your training is delivered by industry professionals.
Our pass rate is exceptional.

Work safely at heights course

Need a nationally accredited work at height certificate? Ask us how through our working relationship with RTO's.

(Conditions may apply)

DAY

0

REGISTER WITH GRAVITEQ

I'm a current IRATA Level 1 with 1000+ hours and 1 years' experience. I've accepted the medical requirements.

FIX BAD HABBITTS & LEARN TO LIFT

Learn the 'key principles' of lifting loads up and down.

1

LEARN TO MOVE

We can lift a load up, down, left and right. Let's use the 'key principles' to haul and lower a load anywhere.

2

IMPLEMENT YOUR LEARNINGS

Try moving with a load, learn to get past anything with an additional load attached to you.

DAY

3

FLY SOLO

It's time to tie up any loose ends, and practice makes perfect..

4

SMASH YOUR ASSESSMENT

Time to show off your skills, knowledge and safety attitude..

FIX BAD HABBITTS & LEARN TO LIFT

Learn the 'key principles' of lifting loads up and down.

1

2

LEARN TO MOVE

Let's use the 'key principles' to haul and lower a load anywhere, then add tensioned lines for greater lift.

INTERVENE

Try moving with a load, learn to get past anything with an additional load attached to you, then practice short lifts

DAY

3

4

FLY SOLO

It's time to tie up any loose ends, visualise a rescue step by step and practice a random one to verify your awesomeness!

DAY

5

SMASH YOUR ASSESSMENT

Time to show off your skills, knowledge and safety attitude..

MORE REASONS TO LOVE GRAVITEQ?

FREE coffee
& tea

Great location

Ample parking

Video tutorials

New equipment

Start times

Day 1: 0800 – 1630 – (Meet in Site Skills reception.)

Day 2: 0800 – 1630 – (Meet in classroom.)

Day 3: 0800 - 1630- (Meet in classroom.)

Day 4: 0800 - 1630- (Meet in classroom.)

Day 5: 0800 – 1630 – Rest Day (Optional Extras: Additional training or Working at heights)

Day 6: 0800 - 1630 Assessment – (Meet in training area.)

What to bring

Level 1, just bring yourself and a willingness to learn.

Level 2 or 3 upgrades MUST bring their up to date logbook on the first day.

What to wear

We recommend something comfortable, hi-viz overalls and steel capped boots are the garments of choice for most rope techs. We're pretty casual at training but there are some rules:

- No singlets
- Enclosed shoes must be work

Enrolment

You must be 18+ to attend, and be medically fit as defined [here](#)

FAQ about your IRATA certificate...

Q. How many days training is your IRATA course?

A. The minimum requirement for a full IRATA course is 5 full days (4 days training + 1 day assessment). Check the Graviteq website for more details.

Q. Does your ticket have an expiry date?

A. Your IRATA certificate expires after 3 years in which you will be required to undertake a full IRATA course to remain valid.

Q. What is level 1?

This is a rope access technician who is able to perform a specified range of rope access tasks under the supervision of a Level 3 rope access safety supervisor.

Q. What is level 2?

This is an experienced rope access technician who has Level 1 skills plus more complex rigging, rescue and rope access skills, under the supervision of a Level 3 rope access safety supervisor.

Q. What is level 3?

This is a rope access technician who is able to demonstrate the skills and knowledge required of Levels 1 and 2; is conversant with relevant work techniques and legislation; has an extensive knowledge of advanced rigging and rescue techniques; holds an appropriate and current first aid certificate and has knowledge of the IRATA International training, assessment and certification

scheme. Subject to a Level 3 having the necessary supervisory skills, he/she can become a rope access safety supervisor with responsibility for rope access safety in work projects:

Q. Is this course physical?

A. At Level 1 you will need to demonstrate a large variety of basic rope maneuvers. Graviteq trainers have the ability to teach you techniques that can help make it less demanding on the body.

Q. Is rope access a good career?

A. Rope Access offers access to difficult area. A typical rope access technician has the ability to adapt too many tasks and career paths. An expert in a particular field (boilermaker or electrician) may specialize accessing difficult areas via rope access techniques.

Q. If my level 1 is expired, do I need to do a full course again?

A. Yes, in such cases technicians are required to undertake a minimum of 4-days training prior to assessment to Level 1.

Q. Can I get a refund if I cancel 2 weeks in advance?

A. Yes, for full details about refunds and cancelations please read our [refund policy](#).

Q. Is there a way I can get some training materials before attending?

A. Yes, here is a list of links we use during our training course.
